Presentation Portfolio Details

Lecture 02

Dr Md Noor-A-Rahim

January 13, 2026

Portfolio Overview

- **Weighting:** 50 marks (25% of total module marks).
- **Format:** Group project (4-5 students per group).
- **Collaboration:** Groups formed on Canvas; use any preferred collaboration tools.

Two Main Elements:

1. **Individual Report (20 marks):** Technical summary of your specific role/contribution.
2. **Group Presentation (30 marks):** Collective delivery of the project solution.

The Scenario: Technical Consultancy

The Setup:

- You and your colleagues form a **Technical Consultancy Team**.
- A client needs a solution for a high-friction problem using a **Data-Intensive Application**.

The Objective:

- Define the **Technical Specification** and **Feasibility**.
- Solution must involve user interaction and significant data processing/analytics.
- Focus on creativity, teamwork, and interdisciplinary collaboration.

Group Roles

Divide work based on strengths and internship interests:

- **Cloud Architect:** Infrastructure design, scaling, and availability.
- **Data Engineer:** Data pipelines, storage, and processing.
- **Product Manager:** Requirements, value proposition, and TCO.
- **Security Specialist:** Governance, compliance, and threat mitigation.

Mandatory Elements

Incorporate at least **four** elements from this list:

- **Competitive Analysis & Differentiation** (Mandatory)
- **Feasibility & Total Cost of Ownership (TCO)** (Mandatory)
- System Architecture (The C4 Model)
- Implementation Strategy & Tech Stack
- Data Pipeline & Engineering
- Analytics & Intelligence Strategy
- Security & Governance

Individual Report Guidelines

- **Due Date:** February 13, 2026.
- **Format:** LaTeX (Overleaf) - Shareable link must be included.
- **Length:** Maximum 3 pages (strict).
- **Style:** Corporate Technical Briefing / Technical Decision Record (TDR).

Required Structure:

1. **Executive Summary (BLUF):** Bottom Line Up Front.
2. **Detailed Technical Specification:** In-depth analysis of your element.
3. **Visual Evidence:** One industry-standard diagram + One data table.
4. **Risk Analysis & Limitations.**
5. **References:** Minimum 5 credible sources.

Group Presentation Details

- **Audience:** Senior executives / higher authorities.
- **Duration:** 12 minutes total (plus 3-5 mins Q&A).
- **Participation:** Each group member must present a part.
- **Submission:** Presentation material due Feb 25, 2026.

Evaluation Criteria (30 Marks):

Criteria	Marks
Originality, Feasibility, Depth	10
Quality of Presentation Material	10
Communication & Delivery Skills	10

Thanks!
